Successful Box Social.
The box supper and social at the M. E. church, south, was a success.

Smugglers Fly Across.
We told you so—When the airplane was invented the "protective tariff" faced its doom. Mr. Schoups of the Treasury department verifies our suspicions that smuggling has become a lucrative and established industry.

"Not only," says he, "is liquor coming over the border, from Canada from the West Indies and from goodness know where-not, but other articles are being included in the cargoes which are picked up by motor boats outside the three-mile limit and by the airplane which cruises by night."

Simple problem—if an airplane can carry 1,000 pounds of wet goods over the prohibition borders how many diamonds could the same airplane carry over the protective tariff barriers.

Quite so—And what is the profit? Yes, almost equal to that of a meat or a wholesale clothing profit.
